

CONFERENCE XI: Copenhagen/Malmö/Lund (Denmark/Sweden), 26-29 August 1999

Theme: Trans national co-operation – Trans national university information systems.

The theme was chosen because of the new bridge between Denmark and Sweden, which was at that time under construction and was planned to be opened in the year 2000.

Venue: The conference was organised by the Öresund University, a regional university network for research and learning. Its originality lay in the fact that it took place both in Denmark and in Sweden, the delegates being driven from one country to another according to the programme.

All the participants were staying in the same hotel, the Cab-Inn Hotel.
